Have You Seen

# RIFFLE CREEK PAPERS

AND LITTLE SERMONS FOR TEACHERS?

The book has been placed on the public school library lists of four states, and is adopted for teachers' reading circles in many counties.

Don't be misled by the sub-title, "Little Sermons," and imagine that the book is full of dry essays. The following testimonials will correct that impression:

## Watch this Space Each Month

for opinions of other educators.

SUPT. GREENWOOD, of Kansas City, says:

With deepest interest and many laughs, I have read "Rifle Creek Papers" and "Arithmetic in the Common Schools." Every teacher, as well as high, sonorous, pedagogical professors, ought to read these two bright, sensible, philosophical books. They clear up the hazy atmosphere that has befogged so many intellects of recent years, owing to the stilted teaching of the would-be leaders in educational thought. *You have fired solid shot. Do it some more.*

THE SCHOOL GAZETTE, Harrisburg

says: Rifle Creek Papers contain psychology in concrete form, easily grasped by the public school teacher. It is as interesting as the Evolution of Dodd, and as entertaining as Roderick Hume. Such a book as this must multiply the common school teacher's insight into his work many fold. The book has already been adopted for the State Library list for schools in Wisconsin and also in Iowa, South Dakota and Minnesota.

The price of the book, cloth bound, is 65 cents; paper edition, 40 cents. Published by S. Y. GILLAN & CO., Milwaukee, Wisconsin.

## JEAN MITCHELL'S SCHOOL

BY ANGELINA WRAY.

I have read and re-read the book. It is concrete pedagogy with life in it, a worthy contribution to the school thought and practice of the time.—*Supt. L. H. Jones, Cleveland.*

**JEAN MITCHELL'S SCHOOL** is superior beyond all comparison as a story of the School. The Evolution of Dodd is a strong example of special pleading, but Miss Wray has given us in Jean Mitchell, the teacher pure and simple in the midst of her wonderful work. The drama here unfolded is that belonging to this fundamental institution—the school. The teacher is a real heroine, winning, one by one, the lawless and the churlish among her pupils to a spirit of loving obedience and mutual regard and good fellowship.

This volume of 300 pages shows the growth of the "Ideal School" from month to month throughout the year. It is beautifully illustrated with drawings from nature studies appropriate to each month of the school year, and with half-tone pictures of the dramatic scenes. Elegantly bound in cloth. Price, \$1.25. Send to the

## ELEMENTS OF . . . PEDAGOGICS.

"It is the best work in the line of practical Pedagogy for the country school teacher that I have yet seen. I shall use it in my summer school."

**L. D. HARVEY**, State Supt. Wisconsin:

"Patrick's Elements of Pedagogics discusses practical questions in a practical way. I know of no better book for those who are beginning the study of pedagogy."

**Supt. J. M. GREENWOOD**, Kansas City, Mo.:

"Elements of Pedagogics is one of the most pointed and inspiring books I ever read. There is not a padded sentence in it. Every one interested in education should read it. No progressive teacher can read the book without wanting more."

## Special Editions of Tarbell's Geographies

### THE TARBELL PLAN FOR SPECIAL GEOGRAPHY

Instead of confining the study of "Special Geography" to the minor, and often valueless, details of a single State, Tarbell's Complete Geography divides the United States into *Physical Groups* of States, and treats each Natural Section in a Special Supplement. The great educational advantage of this method of teaching special geography of the States is apparent.

THE SPECIAL GROUP EDITIONS of Tarbell's Complete Geography now ready are:

	Retail price
The New England States.....	\$1.10
The Middle Atlantic States.....	1.10
The East Central States.....	1.10
The West Central States.....	1.10

THE GENERAL EDITION of Tarbell's Complete Geography, without Special Geography, \$1.00.

We solicit correspondence from superintendents, teachers and school officers, relative to the examination and introduction of this Series of Geographies.
